To Whomsoever It May Concern

"Business Octane's Telepresence is helping us foster much better collaboration on daily basis amongst our group companies, offices and mining locations which are spread across the world. The ability for our management teams to be able to work together face to face, regardless of the location, with the help of media rich collaboration tools is transforming the way and the speed at which we operate and allowing us to take faster decisions, while cutting travel considerably."

Smit Bohra

Vice President (Finance)
