

Pro Huddle Meeting Solutions

Problems in **Huddle Meetings**

- ▶ There are lots of **wires and microphone cables on the table**.
- ▶ Further on account of **no people & content separation**, recognizing **far participants** and understanding their **body language** is a **big problem** as they appear stamp sized.
- ▶ People **sitting near the screen appear bigger** and people **sitting far from the screen appear smaller** to the **far locations**.
- ▶ Further there is a **difference of head height** when a few participants are **standing along with few sitting participants**.
- ▶ For **BYOD meetings** everyone is waiting for the **BYOD laptop holder** which **wastes the time** for **all other participants**.
- ▶ On account of **two or more glass walls / hard walls** audio intelligibility for **far site participants is not good** enough which results in communication gaps.
- ▶ **Either birds eye view or chin up view** is sent to **far participants** on account of **not mounting the camera bar** on top of the display between a **height of 4.5 feet and 5 feet**.
- ▶ Typically **HDMI, USB & laptop charger (3 Cables)** need to be brought to the **huddle room by the presenters**. Similarly for **BYOD meetings** apart from the laptop, **these 3 Cables** need to be brought in which is cumbersome and also when not immediately available **leads to time wastage of all participants**.
- ▶ **Poor lighting sends dark images** to far site participants, which is a result of **common down lighters** being **used in huddle rooms**.
- ▶ There is **no reliable huddle room** booking status indication visible outside the room.

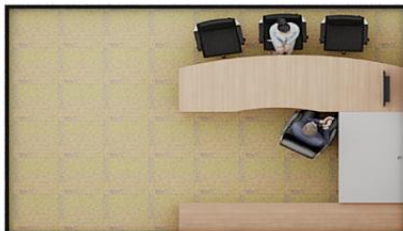

Convert your **Senior management cabins** into **high-class video conferencing huddle rooms** with one of its kind system in the world that saves their **precious time in booking, locating and walking to a VC room.**

Key Capabilities of DTEN Me PRO27

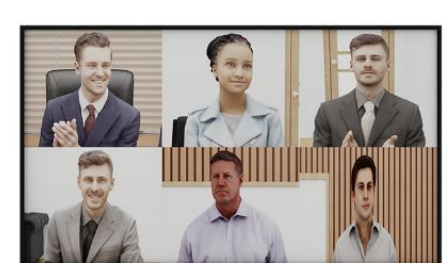

- ▶ Use it as a **27" Touch display stand-alone All-in-One** device for **high-quality video conferencing**, or as an **extended monitor** to the laptop while charging the laptop with a **single USB-C type Cable** that will also **declutter their table.**
- ▶ **3 smart array Cameras** for a **160 Degree angle** of view to show your **big boss and his/her** as many visitors **life-like** for the **first time in up to six** as many **separate windows** as shown.
- ▶ **High-quality stereo speakers** with **Audio AI** for **background sound reduction.**
- ▶ **In-Built Android Zoom room system** with the capability to do meetings on **MS Teams or Google Meet** through their laptop by connecting the **same single USB C cable.**
- ▶ Very **high quality built-in 8 microphones** for up to **8 feet Audio pick up.**
- ▶ **Equalizes "seated & standing"** and **"near & far"** participants heads and size for remote locations.

View of both cabin executive & visitor sent in two separate windows to far sites

DTEN D7X 55" & D7X 75"

The **All-in-One 55" & 75"** that delivers a superior MS Teams / Zoom meeting experience with advanced audio, video, and real collaboration technology that will also declutter your meetings.

SEE THE DIFFERENCE

AI Video That Understands the Room
The D7X AI's 4K dual Ultra HD camera suite captures every participant with precision

- **LiDAR laser light sensor technology** maps the room in 3D and autonomously recognizes glass walls and windows.
- **Adaptive Framing** auto-detects people and dynamically adjusts composition.
- **Intelligent Focus** recognizes speakers and maintains natural eye contact across the room.
- **48MP Center Camera** with 102° FOV plus dual AI 4K cameras offering 160° combined FOV delivers full-scene coverage with crisp, cinematic detail.
- **Smart Lighting Adjustment** enhances visibility in challenging conditions.

HEAR THE DIFFERENCE

AI Audio That Tunes to You
A 15-element microphone array isolates speech at the source to improve clarity for all.

- **Beamforming** technology with voice tracking ensures optimal clarity across every seat, even as participants move.
- **Adaptive noise cancellation** removes background hum and chatter.
- **40 watt** front-facing stereo speakers fill the room with lifelike sound for improved clarity and coverage.
- **Continues real-time updates** to maintain consistent audio performance.

COLLABORATE BETTER THAN EVER

Intuitive Touch and AI Collaboration Tools

- **Write, sketch, and annotate** on the **ultra-responsive 4K, 20-point capacitive touch display** with 70% faster response rate than standard displays.
- **Natural ink experience** with **auto-shape and color recognition**.
- **Integrated whiteboard AI suggestions** help organize ideas automatically.
- **Instant save and share** through **Microsoft Whiteboard** integration or **Zoom Whiteboard**.
- **Access websites and line-of-business applications** through **Microsoft Edge in Teams Rooms**.

DEVICE CERTIFICATION

Device certification for **Microsoft Teams Rooms** and **Zoom Rooms** is underway.

Core All-In-One

Huddle Solutions

The Core All-in-One Huddle Solutions that delivers a superior MS Teams / Zoom meeting experience with advanced audio, video, and real collaboration technology.

Pro Video

Managers for Flushed Displays, Cameras & Speakers

Multiple large displays and cameras, both embedded at optimal height, along with enclosed speakers and cables in ProVideoManagers, for highest level of eye contact to provide highly functional, clutter-free, and flexible Board Rooms with modern design and aesthetics too.

ProVideoManagers are made with a lightweight machined aluminium structure, which also houses/hides all Cameras, displays, speakers, and cables, providing for great aesthetic appeal. High-quality super-silent 12db cooling fans provide necessary ventilation for all the equipments housed in the equipment racks.

A wide range of our **Smart ProVideoManagers** for your **Video Meetings**

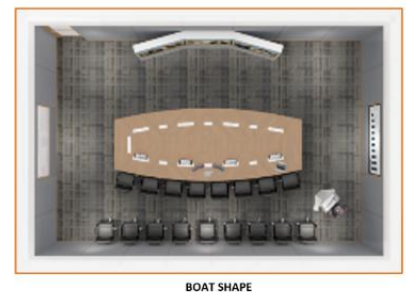

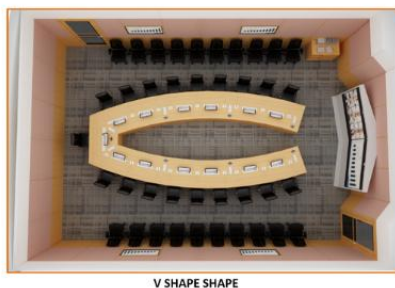

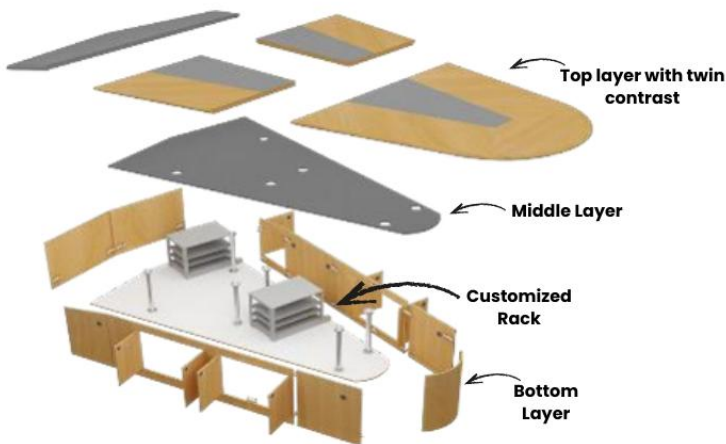

ProCollabStations Bespoke Video Tables

ProCollabStations remove cable clutter on top and under the table, enabling the mounting of multiple embedded motorized and non-motorized content monitors, motorized microphones, and cable management boxes in the most optimal manner, while providing housing for equipment racks, removing the need for multiple raceways in the floor.

Key Capabilities of ProCollabStations

- ▶ The technology-embedded **ProCollabSTATION** with a twin-contrast color scheme tabletop, with defined space for every piece of equipment, ensures your conference rooms still look wonderful without compromising functionality.
- ▶ Improved View of participants in Video Conferences to help you see the least of table and most of participants' view in all video meetings as against the reverse that generally happens
- ▶ Built-in equipment racks in the **ProCollabSTATION** along with 12 db silent cooling fans gives an aesthetic look while saving your valuable real estate.
- ▶ Apart from improving eye contact, tapering design at the end of the table tops adds to the "WOW" factor and gives a feeling of a cockpit.
- ▶ Declutters the entire with all the electricals AV cables & raceways running inside.

AltraLight Telepresence - Lighting Fixture

AltraLight enhances the overall visual collaboration experience in video meetings by both optimally improving subject and room lighting intensity and uniformity. This solution helps far-site participants see local participants with their faces fully lit and without any under-eye shadows, which has substantially reduced the effectiveness of your video teleconferences in the past.

Old Lighting Image

New Lighting Image

Special **600mm x 600mm x 150mm** fixture with **36 W LED** with a unique profile to throw light at **45 degrees**. Requires a minimum ceiling height of **2850mm**.

Key Capabilities of **AltraLight Telepresence**

- ▶ It provides studio-quality lighting to improve the effectiveness of video teleconferences, whether they are used in meeting rooms or large conference rooms.
- ▶ This helps far sight participants to see local participants without any under-eye shadows reducing the effectiveness of your video teleconferences substantially.
- ▶ Available for various meeting/conference room sizes, which dramatically improves the overall visual collaboration experience for all participants.

All-in-one desktop collaboration solution for hybrid office

Yealink DeskVision A24 is a desktop collaboration solution launched by Yealink for video conferencing that integrates PC monitors and UC audio and video endpoint applications. It can be used as an independent video conferencing endpoint or desktop monitor. The USB docking function and PD power supply can effectively reduce the number of devices on the desktop and the complexity of deployment, which can meet the application of various scenarios, such as the home office and senior management office. You can also Charge your Phones wirelessly.

Key Features and Benefits

All-in-one design, easy installation and deployment

Yealink DeskVision A24 integrates a 23.8-inch touch screen, a 1080p camera, a microphone, and a stereo speaker. It does not require complicated installation and connection, and at least only one power cord is required to work, making the installation and deployment easier.

Meanwhile, the device can be used as a PC monitor and audio and video peripherals and supports USB docking stations and PD power supply functions. The PC can be connected to the device with just one USB-C cable, effectively reducing the number of devices and cables on the user's desktop.

Top speakers for the ultimate audio experience

DeskVision A24 features an innovative microphone design, professionally customized stereo speakers, an independent, intelligent audio processing chip, and Yealink's new generation of deep learning-based intelligent noise cancellation and echo cancellation algorithms. It can bring users an ultra-high definition full duplex call experience.

Dual-mode integration, a more efficient hybrid office experience

Yealink DeskVision A24 can be used as a PC monitor or as an independent video conferencing system. When the device is used as a PC monitor, it has the low latency and display effect of an independent monitor, and the video conferencing system can still keep running in the background. When there are events such as incoming calls or messages in the conference system, users can switch to the video conference system to answer, achieving an immersive work experience.

- PC Monitor Mode
- Full-HD Video Call
- High quality microphone and speakers
- USB Docking Station
- USB Power Delivery for PC
- Qi Wireless Charging

DeskVision A24

Desk Simplified; Collaboration Optimized

DeskVision A24 is a versatile desktop device suitable for shared or personal use in diverse settings like phone rooms, not-desking areas, and personal desks.

- All-in-one design
- Pop-up Ckcamera
- Full-duplex audio
- Intelligent noise cancelation
- UC workstation

UVC20

Immediate brilliant video experience
For personal desktop

- FHD
5 Mega-pixel
- Smart Light™
- Omni-direction
Mic
- Rotatable
Lens
- Built-in
Lens Cap
- Easy Use &
Management

The Yealink UVC20 is a full HD webcam for a brilliant personal desktop video experience, which can be applied to remote working, open meeting scenarios, distance education, training, live streaming, and telemedicine. Powered by 5 mega-pixel full HD glass lens, omni-direction mic, auto exposure, auto focus, and rotatable lens, UVC20 ensures perfect clear video in any environment. Compatible with virtually all video conferencing software applications, you can quickly set up and run any meeting.

Smooth Video, Premium Experience

UVC20 ensures smooth experience and clear communication with premium video and audio experience. 5 Mega-pixel full HD glass lens delivers 1080P HD video and true-to-life clarity. The built-in omni-direction mic supports for accurate voice pick up ranging up to 180°/4.9 feet, bringing crystal-clear communication.

Easy Using, Quick Start-up

As an USB camera, UVC20 is plug-and-play and right for various video conferencing platforms or applications with a convenient BYOD experience. Moreover, Yealink USB Connect as a management software delivers a host for the capability to monitor usage, access the device information, conduct diagnoses, and perform firmware updates, which is time-saving and worries-free for management.

All-in-One USB Video Bar for Small and Huddle Room

Yealink UVC34 is an all-in-one intelligent USB meeting device for small and huddle rooms and work from home scenario. Featuring ultra HD 4K camera and 120° super-wide-angle lens, and supports 5x digital zoom, UVC34 delivers outstanding video quality. Together with the electric lens cap, its AI technologies including face detection, and noise proof and so on allow users to experience a smarter and safer video conference. With 8 microphone arrays and high fidelity speaker, UVC34 brings excellent call quality even in full-duplex mode. Moreover, UVC34 supports remote management on Yealink Device Management Platform via its built-in Wi-Fi.

Key Features and Benefits

Ultra HD 4K Camera | Super-Wide 120° Field of View

Ultra HD 4K camera with 1/2.8-inch CMOS brings UHD 4K video conference with delicate details. With super-wide 120° field of view, everyone in the conference can be seen without adjusting the camera. Moreover, the image brightness can be automatically optimized even in a dim or backlight environment, ensuring the participant faces can be seen clearly.

Immersive Visual Experience

UVC34 not only delivers a the best-class image quality with natural color reproduction, but also the smooth video and details, endeavoring to optimize the meeting experience for users. UVC34 also supports multiple resolutions, including 4K/30FPS, 1440P/30FPS, 1080P/30FPS and 720P/30FPS to adapt to different displays and applications.

Secure Conference with Electric Lens Cap

The camera electric lens cap automatically opens when the video conference starts and remains closed when not having video conferences, securing your conference privacy.

Built-in Wi-Fi, Remote Device Management

UVC34 can connect to a network via its built-in Wi-Fi, realizing remote device management, configuration, diagnosis, and upgrade.

All-in-One Design, Portable and Easy to Install, Improve Your WFH Experience

Integrating audio and video, UVC34 takes up less space and can be put into a backpack. It can be used by hanging on a TV or monitor without any deployment cost, improving your work-from-home experience.

Applicable to Most Popular Video Conferencing Platforms

As the standard UAC/UVC device, UVC34 is applicable to most video conferencing platforms.

- Ultra HD 4K camera with 1/2.8-inch CMOS
- 120° super-wide-angle lens
- Electric lens cap
- Auto Framing and AI Face Enhancement
- Built-in Wi-Fi, remote device management
- Applicable to most popular video conferencing Platforms

Package includes:

- UVC34 all-in-one USB video bar
- VCR20 Remote Control, 2 x AAA battery
- Power adapter
- Wall bracket and accessories
- 7m USB-B to USB-A cable

Camera

- 8MP Camera with 1/2.8-inch CMOS
- 4K 30FPS
- 120° field of view
- 5x e-PTZ camera
- Electric lens cap
- 9 x Camera presets

Audio

- Built-in 8 microphone array
- 4.5-meter voice pickup range
- Built-in 5W high fidelity speaker
- Speaker frequency response: 100-20kHz
- Yealink Noise Proof Technology
- Full-duplex
- Echo cancellation

AI Technologies

- Auto Framing
- AI Face Enhancement
- Yealink Noise Proof Technology

System Requirement

- Windows7, Windows8.1, Windows10, Mac OS 10.10 or higher
- Support for standard audio and video device drivers
 - UAC2.0
 - UVC1.1

UVC34 Connections

- 1 x USB2.0 Type-B port
- 1 x USB2.0 Type-A port
- 1 x Yealink microphone port (RJ-45)
- 1 x Power port
- 1 x Security lock slot
- 1 x Reset slot
- Built-in Wi-Fi
- Bluetooth 4.2

Manageability

- Yealink RoomConnect management tool
- Yealink USB Connect management tool
- Yealink Management Cloud Service/Device Management Platform

Compatibility

- UVC34 is applicable to most video conferencing platform, including but not limited to the following:
 - Microsoft Teams and Skype for Business
 - Zoom Room and Zoom client
 - BlueJeans
 - Google Meet
 - Cisco Webex
 - Tencent VooV Meeting
 - DingTalk
 - Yealink Meeting
 - GoToMeeting
 - Huawei Cloud WeLink

Product Dimension (W.D.H)

- UVC34: 380mm x 55mm x 55mm
- N.W/CTN: 1.28Kg

Other Physical Features

- External Yealink Power Adapter: AC 100~240V input and DC 48V/0.7A Output
- Operating humidity:10~95%
- Operating temperature: 0~40°C

Amazing Capabilities of Android Collaboration Bars A 40

BE IMPRESSIVE WITH AI-POWERED VIEW

The Meeting Bar A40 ensures everyone is equally impressive and important in a virtual meeting. Embrace a new level of meeting equity

Focus on the latest 4 active speakers to ensure the natural conversation go as Fast and precise tracking for 3 seamless meeting how

The on-device **IntelliFocus** feature displays real-time close-up shots of the recent speakers, enabling you to stay focused on what truly matters. Feel free to make your points just as you would in a face-to-face conversation.

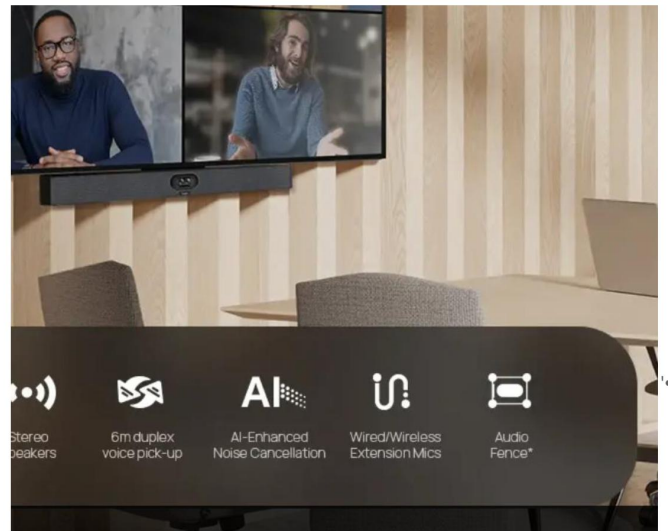

Video Fence Feature

The Video Fence feature marks the boundaries of a virtual meeting space. Your colleagues only see and hear what's inside, keeping the focus solely on your point.

Voice Enhanced with AI Powered Audio

To ensure a smooth and distraction-free virtual meeting, A40 provides high-quality full-duplex audio with AI-Enhanced Noise Cancellation and Reverberation Suppression

SmartVision 40 Datasheet

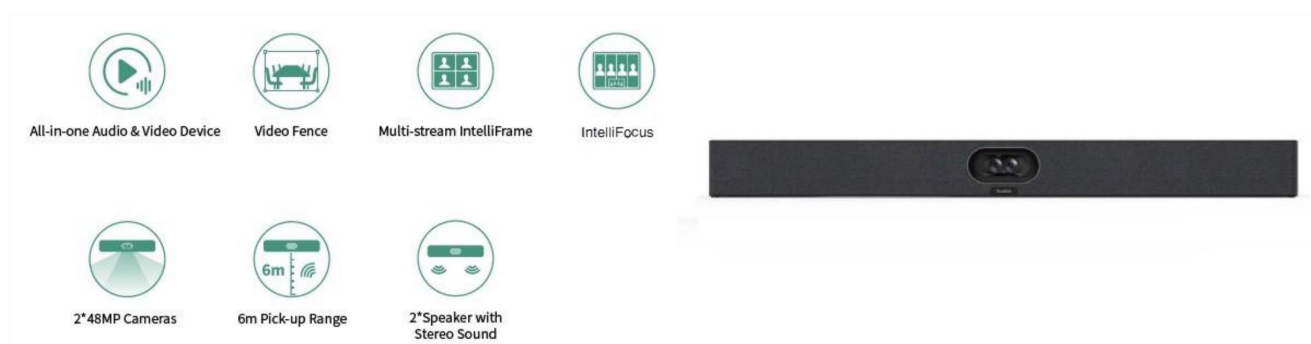

All-in-One Intelligent Camera for Enhanced Teams Rooms Experience

The Yealink SmartVision 40 is an ultra-high-definition, all-in-one intelligent conference system tailored for small to medium meeting rooms, leveraging advanced AI algorithms to enhance meeting efficiency.

With dual 48MP lenses, SmartVision 40 combines images to produce high-pixel-density pictures, ensuring superior image clarity. Its built-in stereo speakers, 8x MEMS microphone array, and support for two additional expansion microphones¹ provide excellent audio coverage, while intelligent noise reduction technology ensures a clear audio experience.

Equipped with AI features such as face detection, sound source positioning, and voice tracking, SmartVision 40 tracks participants' movements to keep the speaker in focus, providing stable, high-quality images. Beyond basic auto framing and speaker tracking, the Multi-stream IntelliFrame feature² uses multi-stream output to detect and frame speakers, displaying them on-screen, which enables remote participants to see each speaker's expressions and gestures for an interactive experience.

Its integrated design makes deployment straightforward: simply place it in the meeting room, connect to power and the network—no complicated setup is needed. For added privacy, SmartVision 40 includes an automatic lens cover, ensuring a secure conference experience.

Key Features and Benefits

- Ultra HD picture quality
- Advanced AI features
- High-quality audio capture
- Remote device management
- Easy deployment
- Privacy protection

Ultra HD Picture Quality

The dual-lens fixed-focus setup merges images from both lenses to achieve higher pixel density, resulting in clearer, sharper visuals, ideal for detailed presentations and remote viewing.

Advanced AI Features

In addition to standard auto framing and speaker tracking, SmartVision 40 features IntelliFocus, which detects

Yealink Amazing Capabilities of Android Collaboration Bar – A10

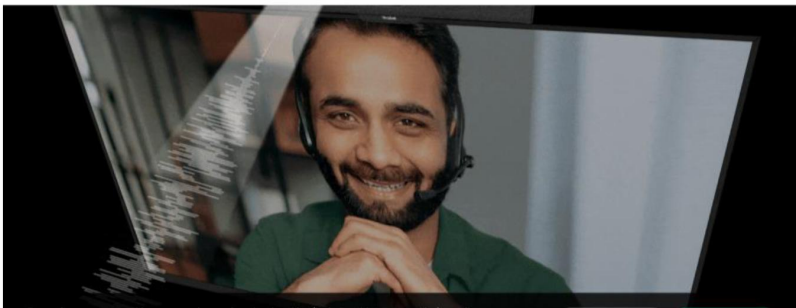

PRO VIEW

A REAL LOOK INTO THE MEETING ROOM
With 4K camera and 120° field of view, capture all important details in the room clearly with great color.

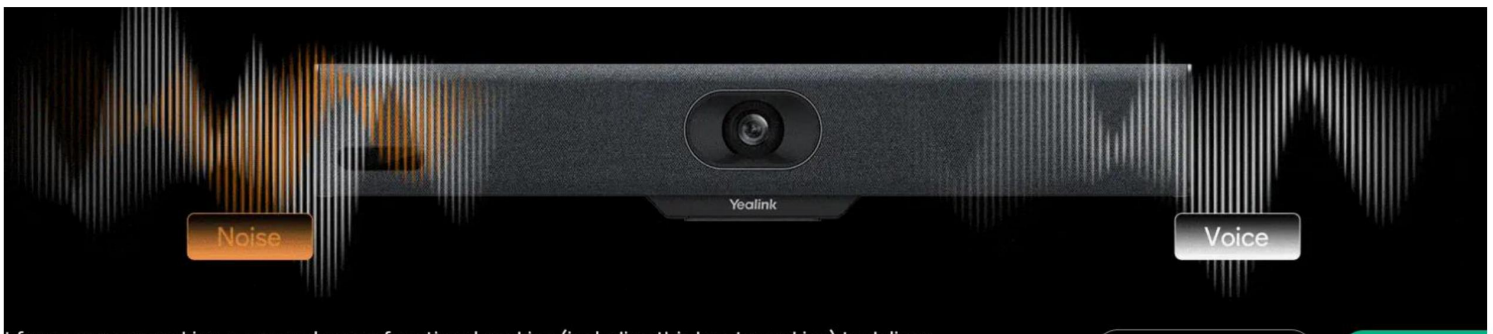

- 01 Auto Framing
- 02 Speaker Tracking
- 03 Smart Gallery*

Smart Gallery provides better support for remote collaboration by following active speakers to ensure everyone can be seen clearly and feel included. Feature supported by Zoom*

PRO VOICE FEEL FREE TO TALK

The built-in 8 MEMS beamforming microphones and speakers in MeetingBar A10 provide full coverage of small spaces for a worry free, full-duplex voice experience.

GETS HEARD CLEARLY

Yealink's enhanced AI noise cancellation enhances the audio experience, leveraging a massive deep-learning sound database to reduce background noises, distracting keyboard clatter, mouse clicks, and footsteps, as well as smartly erase other ambient noises to provide crystal-clear audio quality.

Yealink Amazing Capabilities of Android Collaboration Bar – A10

CLEAR VIEW WITH DEPTH

Meeting Bar A30 is designed for medium rooms. The dual-eye camera system features an optical camera with 10X hybrid zoom and a 4K camera with 120° field of view, delivering a clear visual experience with depth.

- 01 Auto Framing
- 02 Speaker Tracking
- 03 Picture-in-Picture

Picture-in-Picture tracks and frames the speaker in an individual window, which is separate from the other window, for a panoramic view, enabling users to keep an eye on who's talking even if the speaker is seated at a distance in a medium room.

IMMERSIVE VOICE

The built-in 8 MEMS microphone arrays and speakers in Yealink MeetingBar completely cover up to 6-meter medium-sized spaces. As the MeetingBar is equipped with a powerful independent audio processing unit, you can enjoy a worry-free, full-duplex voice experience with superior performance.

NOISE-FREE

Yealink AI-enhanced noise cancellation makes the audio experience more brilliant. Leveraging a massive deep-learning sound database to reduce background noises, the distracting keyboard clatter, mouse clicks, footsteps, and other ambient noises are smartly pared back, ensuring that users enjoy crystal-clear audio quality.

All-In-One Meeting Room Scheduling Panel

Yealink RoomPanel is an 8 inch all-in-one meeting room schedule panel runs android 9.0 and comes with full RGB programmable LED background illumination for immediate visible communication of room status. It includes 10-point touch capability, 2x2 MIMO 802.11ac Wi-Fi, Bluetooth 5.0, built-in NFC/RFID reader, enhanced microphone arrays and speakers to meet all modern workspace demands. Also equipped with Power-over-Ethernet and a variety of mounting brackets, Yealink RoomPanel could be easily mounted on any surface.

Key features and benefits

8-Inch 10-Point Interactive Panel

10-Point touch capability screen to easily book rooms or check-in/out at room panel.

Anti Fingerprint Screen

Keep the screen clean and free from fingerprints and oil stains.

High Visibility LED Bars out Room Status

Full RGB LED bars for immediate all-round visible communication of room status.

Ambient Light & Proximity Sensor Embedded

Environment self-adaptation. Automatically adjust the screen brightness and automatically wake up the screen.

Any Walls, and Tilt Optional

Provide brackets and 3M velcro. Compatible with electrical box, glass and wood, etc., with optional parallel or tilt angle.

Orientation Optional

Easy to mount with portrait or landscape.

PoE or DC Power

Minimalist and flexible installation, keep workspace tidy and modern.

Remote Device Management

Easily monitor, manage, and diagnose by Yealink Management Cloud Server.

802.11ac 2x2 Wi-Fi

Support wireless network deployment and anti-jamming dual-band Wi-Fi.

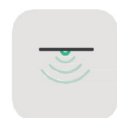

Bluetooth 5.0

Directly connect to room sensors without extra gateways and support proximity features.

RFID & NFC Embedded

Enhance ID authorization security and track meeting attendees.

Actions with Occupancy Sensor

Actions with the room occupancy sensor, such as automatic release, automatic check-in, etc.

Room Scheduling Solution

Amazing Capabilities of USB Video Bars

Poly NoiseBlockAI

Poly NoiseBlockAI suppresses background noise while a call participant actively speaks. It also reduces interruptions caused by common office sounds (keyboard tapping, shuffling papers, etc.) and background chatter. Call recipients hear only the intended speaker's voice

Poly Acoustic Fence

Acoustic Fence technology suppresses background noise sent to the far end. This feature is particularly useful in call center environments where background noise can impact far-end audio quality.

Acoustic Fence works with the following devices:

- Phone handsets
- Wired headsets connected to the headset port
- USB headsets connected to the phone

Wind Smart technology

WindSmart technology from Poly reduces wind noise caused from strong breezes, even up to 14 mph, through multiple layers of wind noise-reduction, including an aerodynamic microphone boom, calibrated windscreen, isolated microphones, and final noise filters.

SoundGuard

SoundGuard provides acoustic limiting for protection against sounds exceeding 118 dBA. Additionally, SoundGuard Digital includes anti-startle protection, which detects and eliminates sudden increases in sound, and time-weighted average (TWA) control, which prevents average sound exposure from exceeding 85 dBA

Poly Smart Conference Phone – C60 Product Brief

SMART CONFERENCE PHONE FOR ANY MEETING SPACE

BENEFITS

- Enhance collaboration with Poly signature audio for natural conversations
- Increase user adoption as the technology in every room is familiar and consistent
- Start a meeting in seconds with one- touch-join
- Compliment your Poly room video solution with a fast, simple control using Trio C60

TRIO C60

Bring people together. Launch big ideas. And make sure everyone at the table can be heard, near or far with Poly signature audio. NoiseBlockAI means speech flows naturally, without interruptions. Expansion microphones deliver brilliant audio for even large conference rooms. It's built for simplicity—for audio conferences or when paired with a Poly video room solution. Best of all, it's super easy to use—launch and join meetings at the touch of a button. And the Trio C60 plays nicely with everyone, delivering native experiences on your favorite collaboration platforms.

So simple, so powerful.

- USB, Bluetooth® or IP connectivity to mobile devices
- Intelligently removes distracting non-speech noise while allowing your voice be heard
- Comprehensive management and analytics for quick deployment and high up time

Poly Smart Conference Phone – C60 Specifications

USER INTERFACE FEATURES

- Gesture-based, multitouch-capable capacitive touch screen
- 5-inch color LCD (720 x 1280 pixel), 9:16 aspect ratio
- On-screen virtual keyboard
- One USB 2.0 Type A-compliant port
- One USB 2.0 Micro-B device port for use as USB audio device and content sharing
- Integrated Bluetooth 5.0¹
- Three multi-colored mute indicators and three sets of capacitive touch volume and mute buttons.
- User interface localized in Arabic, Chinese, Danish, Dutch, English (Canada/US/UK), French, German, Italian, Japanese, Korean, Norwegian, Polish, Portuguese, Russian, Slovenian, Spanish and Swedish

AUDIO FEATURES

- Three MEMS microphones for 360 degree mic pickup
- Loudspeaker
 - Frequency: 100–22,000 Hz
 - Volume: 92 dB at 0.5-m peak volume
- 6.1 m/20 ft microphone pickup range
- Supported codecs:
 - G.711 (A-law and μ -law)
 - G.719
 - G.722, G722.1, G722.1C
 - G.729AB
 - Poly Siren 7, Siren 14
 - iLBC (3.33 Kbps and 15.2 Kbps)
 - Opus (8 Kbps-24 Kbps)
 - SILK
 - Poly Acoustic Clarity technology provides full-duplex conversations, acoustic echo cancellation and background noise suppression-Type 1 compliant (IEEE 1329 full duplex)
- Poly NoiseBlockAI
- Voice activity detection
- Comfort noise generation
- DTMF tone generation (RFC 2833 and in-band)

- Bluetooth® device pairing¹
- Low-delay audio packet transmission
- Adaptive jitter buffers
- Packet loss concealment

CALL HANDLING FEATURES

(MAY BE DEPENDENT ON CONFIGURATION AND ECOSYSTEM)

- Up to three lines (max. one Skype for Business)
- Shared call/bridged line appearance
- Distinctive incoming call treatment/call waiting
- Call timer and call waiting
- Call transfer, hold, divert (forward), pickup
- Called, calling, connected-party information
- One-touch speed dial and meeting join
- Local five-way audio conferencing
- Daisy-chain up to three
- Do-not-disturb function
- Local configurable digit map/dial plan
- Corporate directory access using LDAP
- Visual conference management

NETWORK

- Open SIP
- Skype for Business (certification pending)
- Microsoft Teams (certification pending)
- IETF SIP (RFC 3261 and companion RFCs)
- SDP
- Two-port gigabit Ethernet switch
 - 10/100/1000Base-TX across LAN IN and LAN OUT
 - LAN OUT port supports IEEE 802.3af PSE
- Wi-Fi network connectivity (MIMO)¹
 - 2.4-2.4835 GHz (802.11b, 802.11g, 802.11n HT-20)
 - 5.15-5.825 GHz (802.11a, 802.11n HT-20, HT-40; 802.11ac HT-20, HT-40, HT-80)

MANAGEMENT

- Poly Lens
- PDMS-E, PDMS-SP
- RealPresence Resource Manager (v. 10.9 or above) based provisioning
- Manual or dynamic host configuration protocol (DHCP) network setup
- Poly Zero Touch Provisioning
- FTP/TFTP/HTTP/HTTPS server-based central provisioning
- Provisioning and call server redundancy support
- Time and date synchronization using SNTP

SECURITY

- 802.1X authentication and EAPOL
- Media encryption via SRTP
- Transport layer security (TLS) v 1.2
- Encrypted configuration files
- Digest authentication
- Password login
- Support for URL syntax with password for boot server address
- HTTPS secure provisioning
- Support for signed software executables
- Wi-Fi encryption¹: WEP, WPA-Personal, WPA2-Personal, WPA2-Enterprise with 802.1X (EAP-TLS, PEAP-MSCHAPv2)

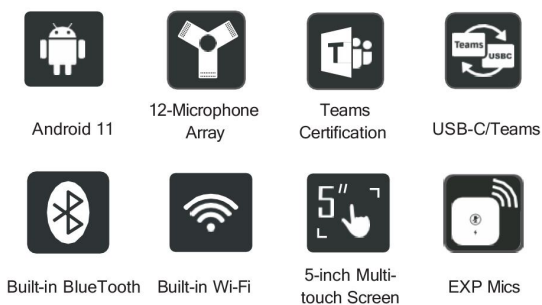

POWER

- LAN IN: Built-in auto-sensing IEEE 802.3at. PoE Device (Class 4) (requires full Class 4 power input on LAN IN for operation Class 0 if no PSE). Backward compatibility with IEEE 802.3af
- LAN OUT: Built-in auto-sensing IEEE 802.3af power sourcing equipment (requires full Class 4 power input on LAN IN for operation)

DATA SHEET

Microsoft Teams Optima HD IP Conference Phone

Yealink Teams enterprise-grade conference phone - CP965, is designed for medium to the large-sized conference room, brings the Teams experience and functionality from the desktop to the conference room. Based on Android 11, the Teams user interface reconciles easiness and simpleness, also strikes an exquisite balance between simplicity and sophistication. CP965 has 12+1 built-in microphones armed with Yealink's Optima HD Voice technology, providing a crystal-clear voice calling experience.

Key Features and Benefits

HD Audio, Smooth Communication

Thanks to its built-in 12 microphones for sound picking and one extra microphone for noise cancellation, CP965 owns a 20 feet (6 m) and 360° voice pickup range. It is an ideal solution for any conference room that needs the best audio experience as if all participants are sitting across the table from each other!

Easy-to-Use Design

The Yealink CP965 is a hermit in the conference phone, owns a 5-inch multi-touch screen and is fully compatible with Teams key calling/meeting functionality, which provides a rich and talented ecosystem. You can enjoy a tap-to-join meeting experience with CP965, which can synchronize Outlook Calendar meeting schedules.

Efficient Provisioning and Management

The Yealink CP965 is coupled with Yealink efficient auto-provisioning mechanism, including phone deployment and configuration. Administrators can take advantage of centralized deployment, management, updating. Moreover, CP965 supports several device management platforms, including Microsoft/Yealink/Unify Square Device Management Platform.

- 5" 720 x 1280 multi-touch screen
- Android 11
- Optimal HD audio, full duplex technology
- 20-foot (6-meter), 360-degree microphone pickup range
- Microsoft Teams-tailored user interface
- Supports Microsoft 365, and upgradability of device applications to Teams
- Built-in Bluetooth 4.2
- Built-in dual band 2.4G/5G Wi-Fi
- Supports Microsoft/Yealink/Unify Square Device Management Platform

Audio Features

- Optimal HD audio
- Audio codec: G722, G722.1C, G726, G.729, G.729A, G723, iLBC, PCMU (G.711A), PCMA (G.711μ), SILK
- 20-foot (6-meter) microphone pickup range
- Apply to the medium to large conference room
- Built-in 12-microphone array, 360-degree voice pickup
- Built-in 1-microphone array, decrease noise
- 56mm diameter and 5w speaker
- Full-duplex speakerphone with AEC
- Echo cancellation tail length is up to 320 ms
- Background noise suppression

Call Handling Features

- P2P call
- Cloud PSTN call
- Call hold/Call mute/Call transfer/Call forward
- Group SimRing
- Block calls without caller ID

Conference Features

- One-Click Join
- Add a Participant to the existing meeting
- Conference Mute/Unmute participants
- Display Meeting Info
- Calendar access to my meetings
- Show acceptance status per participant
- Schedule Teams meeting

Presence and Contacts

- Presence status synchronizes with the client, Presence status control
- Corporate Directory Access
- Show contact picture
- Call history: placed/received/missed
- Synchronized call logs

Phone Features

- Single sign-in
- Visual voicemail
- Change VM playback speed
- Phone lock
- Screensaver
- Power Saving

Display and Indicator

- 5" 720 x 1280 capacitive touch screen
- Volume key
- Home button
- Multilingual user interface
- Modern Teams interface, Full keyboard
- Presence status control: available, busy, DND, be right back, off work, away

Interface

- 1 x RJ45 10/100M Ethernet port
- Power over Ethernet (IEEE 802.3af), class 4
- Built-in dual band Wi-Fi
- Built-in Bluetooth 4.2 (Pending)
- 1 x USB 2.0 Type-A device port
- 1 x USB 2.0 Type-C device port
- 1 x Security slot

Management

- Configuration: browser/phone/Auto provisioning and Device Management Platform
- Provisioning priority management
- Auto Provisioning via Activation Code
- Yealink Redirection and Provisioning Service (RPS)
- QoE (Monitoring Reports)
- Reset to factory, reboot
- Package tracing export, system log
- Screenshot via URL
- View license status

- Supports Microsoft Device Management Platform
- Supports Yealink Device Management Platform
- Supports Unify Square Device Management Platform

Network and Security

- SIP v1 (RFC2543), v2 (RFC3261)
- IPv4/IPv6
- IP Assignment: Static/DHCP
- HTTP/HTTPS web server
- Time and date synchronization using SNTP
- SRTP for voice, Transport Layer Security (TLS1.3)
- HTTPS certificate manager
- IEEE802.1X

Other Physical Features

- Color: Black
- External Yealink PoE adapter (optional)
- Power consumption (PoE): 7.3W-20W
- Dimension (W*D*H): 328 mm*322 mm*62 mm
- Operating humidity: 10-90%
- Storage temperature: -10 to 40°C (+14-104°F)

Package Features

- Package content:
 - Yealink CP965 IP conference phone
 - Ethernet Cable (7.5 m CAT5E UTP cable)
 - Quick Start Guide
 - Yealink PoE Adapter YLPOE30 (Optional)
- Qty/CTN: 5 PCS
- N.W/CTN: 7.964 kg
- G.W/CTN: 9.02 kg
- Giftbox size: 398 mm*384 mm*105 mm
- Carton Meas: 552 mm*392 mm*410 mm
