

Dear

As your management finds it difficult to fly for their “big” meetings now, give them their own **Business Jets** !

Your own Business Jet for flying 6 people on MS Teams or Zoom or both for both “two location Ultra Immersive Telepresence experience” and for “multiple locations Immersive video meetings experience” !

Two location Ultra Immersive Telepresence experience

If you do not want to fly and meet across the table like this

then,

you can meet over video from your own cabin over MS Teams or Zoom or both
OCIT* like this...

Meet face to face with highest possible eye contact based on US patented design

and same table experience, just 2.5 feet to 5.5 feet away

Design based on

US Patent No – US 10, 939,073 B2

*** OCIT : On Cloud Immersive Telepresence**

Also get multiple locations magical Immersive Video meetings experiences which were never available before

MS Teams meeting with separate gallery view, two last pinned chosen speakers and shared presentation

MS Teams meeting with Multiple Continuous Presence of 12 participants and shared presentation

MS Teams meeting with split gallery views on left & right screen and pinned chosen speaker centre screen and shared presentation

**MS Teams meeting with three separate speakers on three separate screens
along with shared content**

Other super amazing capabilities:

1. This one single product can take care of 90% of video collaborations across your enterprise

From research it has been found that 90% of enterprise video meetings locations have 6 or less participants. So that is why Video JetMAX is the most ideal choice for 90% of your new planned video conference huddle rooms and Video cafes !

2. It is very easy to standardize and implement across your worldwide locations because it is 100% “collaboration in a box”

- This makes it easy to get it installed in the chosen location without any room conduiting, raceway & civil modifications.
- A game changer that allows you to have true standardization of video meeting experience across your enterprise without involvement of architects and interior decoration team.
- Get uniform high quality eye contact, content readability & various other capabilities all across your various worldwide locations.
- No binding of conference room requirement: Use it in a room or in an executive cabin or in open plan office.

3. Put it against glass window or glass partition

Absolutely clean view from the back

**Park your Business Jet in your cabin or in a small 150 sqft huddle room
for the use by others too ...**

Video meetings optimised

Both video and local meetings optimised

The capabilities shown above are about MS Teams cloud VC platform based OCIT- On Cloud Immersive Telepresence solutions. However, these OCIT solutions are also available on Zoom, Webex and Google meet.

Further they can have additional native other cloud platforms such as Zoom, Webex or Google meet capability for doing high quality video meetings with customers, partners and suppliers who may be using a different network. Additionally, we do have a complete range of one of its kind in the world, highly effective solutions on MS Teams, Zoom, WebEx or Google meet apt for work from home, Huddle Rooms, Executive Cabins, Boardrooms, Conference Rooms and Training rooms. These too are available on ICaaS- Integrated Collaboration as a Service.
