

World's first Quad engine Octa Cam Immersive Training solutions!

Dear Mr. Chand,

Greeting from Business Octane!

Business Octane proudly announces the successful commissioning of world's first Quad engine Octa Cam video telepresence training room solution for India's leading research institute-**Indian National Center for Ocean Information Services-INCOIS**, which was inaugurated by former ISRO chairman in the august presence of Director INCOIS, Secretary Ministry of Earth Sciences, Secretary Ministry of Science & Technology & Director NRSC. **

INCOIS is an autonomous body under the Ministry of Earth Sciences (MoES) and mandated to provide the best possible ocean information and advisory services to society, industry, government agencies and the scientific community through sustained ocean observations and constant improvements through systematic and focused research. They provide Ocean State Forecasts & advisories to fisher folk as well as provides round-the-clock monitoring and warning services for tsunamis, storm surges, high waves, etc.

Congratulations team INCOIS!

for

getting the world's first **Quad engine Octa Cam**, state of the art training room facility, powered by MS Teams.

Training in combined mode for up to 72 local participants with local trainer & space for upto 8 panel members on lectern.

This unique video telepresence training solution with collapsible acoustic partition makes the room capable of conducting two simultaneous trainings of 36 seating capacities each as well as combined 72 seating capacity training with highest experience of hybrid & cloud-based interactive teaching and learning, which never ever happened before!

Video training in combined mode for 72 seating capacity.

Separate gallery views and two pinned participant's view.

Trainer can explain local as well remote participants by writing on ordinary ceramic whiteboard, electronic whiteboard or by sharing physical document from lectern.

Remote Trainer appearing behind the lectern in video learning scenario.

Layout plan of training room, which can be separated into two different training rooms of 36 seating capacity each.

Get amazing interactive teaching & learning experience.

1. Trainer is empowered to see local participants and all other connected classrooms and remote participants at all the times.
2. Train students from multiple locations - A trainer can invite trainees/ students from various locations for video training.
3. trainer can see all the 49 locations visible on a separate screens while important participant/location can be pinned in front of trainer in another separate screen.
4. Work on the same whiteboard - Empower your trainer to work on the same whiteboard with local & far site participants, whether they are joining from PC , tablet, cell phone or meeting room.
5. Share Physical Documents - Empower your Trainer to explain from physical documents like books, catalogues etc. or object models to trainees, across all locations.
6. Record Sessions - Empower your trainers to Record sessions and to share later.
7. Invite Guest Faculty to deliver the Lectures.
8. All the students can see content on large displays in front.
9. Local students can also interact with all other remote students creating the same classroom feeling.

Trusted by scientists, top research organizations of India & hundreds of enterprise customers:

To know more about the detailed technical and usage capabilities of our various Master Building Blocks for video distance teaching & learning, kindly [CLICK HERE](#) to view the same in PDF.

Looking forward to hearing from you and helping you solve all your teaching & learning problems for the lecture rooms and also for various collaboration requirement for your prestigious institute.

Thanks & Regards,

Sanjay Bansal
