Professional Digital Name Tag					
Optional	PAN-132	Panasonic Digital identification systems have transitioned from traditional paper inserts to advanced electronic labels that utilize high-contrast e-paper technology. These smart placards function without internal physical wiring for data, instead relying on wireless frequencies like 2.4 GHz RF or Bluetooth to receive real-time updates from a central server. This wireless architecture allows for sustainable, battery-powered operation that can last for several years, as energy is only consumed during a display change.	41,400	0	-
